Title :	The 91-Storey Treehouse	 
Author / Publisher:	Andy Griffiths	
Content / Comment:	<p> This book is about Andy and his best friend, Terry. They live in <u>the world's coolest treehouse which has 91 floors!!!</u> They have been doing some building work since they lived there. In this spectacular treehouse adventure, you can <u>take a ride in a submarine sandwich, hang out in a giant spider web, decide whether or not to push the mysterious big red button, visit the fortune teller's tent to meet Madame Know-it-all who may tell you about what will happen in your future.</u> </p> <p style="text-align: center;">This is the seventh book</p>	

of Andy's wacky treehouse adventures where the laugh-out-loud story is told through a combination of texts and fantastic cartoon-style illustrations.

I have read all the seventh books and I like this book best because there are a lot of fun things in the book. I think the story is hilarious and I feel like the characters in the story is talking to me!!!
