ENGLISH NEWSLETTER

The e-version of our newsletter is now available on our school website. Please check it out!

WELCOME BACK, BOYS AND GIRLS! LET'S BE GRATEFUL AND FIGHT COVID-19 TOGETHER!

The highly infectious Coronavirus Disease 2019 (COVID-19) is definitely the talk of the town. COVID-19 is mainly transmitted through respiratory droplets as well as contact. To avoid contracting the virus, pay attention to personal hygiene, keep your hands clean, and be aware of social distancing measures.

How can we cope better during the epidemic? Even with a mask on, we should avoid handshakes and hugs. We should be careful about how we treat our masks. When we dispose of them, they should be in a rubbish bin with a lid. Janitors have worked so hard to keep schools clean and safe. We should thank them for their efforts.

The epidemic won't go away soon. We may have to live with it for a while so it's extremely important for us to stay healthy and prepare for the prolonged fight against the virus.

Daily exercise, a balanced diet and plenty of rest will help you stay healthy. If you feel unwell, seek medical attention as soon as possible and don't go to school. Let's stay positive when facing the challenges brought by the epidemic. We need to look after ourselves and also look after those around us. Let's Be Grateful and Fight COVID-19 together! Thank you!

A MESSAGE FROM OUR NETS

Have you been staying at home a lot this past year? Staying at home in 2020/21 has been great for your gaming skills but is there a hidden cost? Have you seen the sun lately?

More than half of all kids in Hong Kong don't get enough **vitamin D**. This vitamin is super important for our bones, heart and, most importantly, our immune system. To help our bodies fight diseases we need a strong immune system.

The number one easiest way to get **vitamin D** is to get some sun! We only need about 15 min of sunshine on our arms and legs each day to boost our **vitamin D** levels.

Tips to boost your **vitamin D** levels:

Go for a walk with some friends.

Go for a bike ride.

Have a swim at the beach or an outdoor pool.

Sit in the park with a good book.

 **Remember to protect your skin if you are spending more than 30 minutes outside. You don't want to roast your body like char siu!**
